

MULTI-BRAND SOLUTIONS IN CODING & PACKAGING

Welcome to BAMR ENTERPRISES

BAMR ENTERPRISES is a diversified company providing high-performance industrial solutions in coding & packaging under its flagship brand **IndustryBox** and premium drinking water products under Aquavia.

We are manufacturers, authorized distributors, and importers offering best-in-class technologies in CIJ, TIJ, and CO₂ Laserjet printing, shrink wrapping, bottle labeling, and complete packaged drinking water plant setup.

Vision – IndustryBox

To become India's most reliable partner for advanced packaging and coding machinery across industries.

Mission – IndustryBox

To deliver multi-brand packaging solutions with superior technology, prompt service, and long-term value for manufacturers in pharmaceuticals, beverages, chemicals, and FMCG.

A) Packaging Machinery (IndustryBox)

i. Sticker Labeling Machines

- PET Bottle Sticker Labeling Machine
- Pharmaceutical Labeling Machine

ii. Shrink Wrapping Machines

- Automatic Shrink Tunnel
- L-Sealer with Shrink Pack

iii. Other Machines

- Bottle Washing Machines
- Conveyor Systems

B) Coding & Marking Solutions

i. CIJ Printers

- Max Print Lines: 3 to 6
- Applications: Bottles, pouches, labels & others.

ii. TIJ Printers

- Handheld & Online Options
- High-resolution printing
- Ink Type: Solvent / Water-based

iii. CO₂ Laserjet Printers

- Maintenance-Free
- Excellent for PET, HDPE, PVC

We are proud to be associated with industry-leading brands for coding, marking, and packaging solutions.

Proudly Made in India

Labeling Solutions—Sticker Labeling Machine

Advanced Key Features

Our Sticker Labeling Machines are engineered for efficiency, precision, and reliability. Key features include:

- **PLC Control System**—Ensures smart, automated operations with easy setup.
- **High Labeling Accuracy** – Delivers consistent, pinpoint label placement.
- **Stable Performance**—Designed for long-term, high-speed production.
- **Smooth Labeling Effect**—Clean and wrinkle-free label application.
- **Alarm Indication** – Alerts for issues like label shortage or machine errors.
- **Power Saving Function**—Optimized for energy efficiency during idle times.
- **Servo Motor (Optional)**—For even more precise and faster labeling control.

Automatic Square & Round Bottle Labeling Machine

BAMR ENTERPRISES offers advanced **Sticker Labeling Machines** designed for precise labeling on **flat, round, and square bottles**. Ideal for products in **food & beverage, cosmetics, pharmaceuticals, chemicals**, and other FMCG sectors, our machines ensure **high-speed, accurate, and smooth label application**.

They are suitable for:

- PET & glass bottles
- Jars & vials
- Cartons & boxes
- Tubes & pouches

Our labeling systems are available in both **single-side** and **double-side** configurations, with options for **PLC control, servo drive**, and **alarm functions** for maximum performance and flexibility.

Cosmetics Bottles

Chemical Bottles

Pharma Bottles

Labeling Solutions- CIJ Printer Machine

Powered by BAMR ENTERPRISES – IndustryBox Division

BAMR ENTERPRISES offers **advanced Continuous Inkjet Printers (CIJ)** that deliver high-speed, non-contact, and reliable printing for a wide range of products and surfaces. Ideal for **batch coding, MRP printing, barcoding, and expiry dates**, CIJ printers are essential for **industrial packaging lines in pharmaceuticals, food & beverage, chemicals, and FMCG sectors**.

Our CIJ systems ensure **superior print clarity, quick-drying inks**, and **consistent performance**, even in **high-speed production environments**.

Applications: High-speed printing on bottles, pouches, cables

Features:

- Non-contact high-speed coding
- Multiple line printing (up to 6 lines)
- Waterproof design (IP55/IP65)
- Low-maintenance operation

Industries: Pharmaceuticals, FMCG, Beverages

Continuous Inkjet Printers (CIJ)

Labeling Solutions- TIJ Printer Machine

BAMR ENTERPRISES provides compact and high-resolution **Thermal Inkjet Printers (TIJ)**, ideal for **high-quality printing on cartons, labels, pouches, and blister packs**. With **zero maintenance, easy cartridge replacement**, and **clean operation**, TIJ printers are perfect for industries like **pharmaceuticals, food & beverage, cosmetics, and electronics**.

Our TIJ solutions deliver **sharp text, logos, barcodes, and batch information** with **fast-drying, smudge-proof inks** for a seamless production experience.

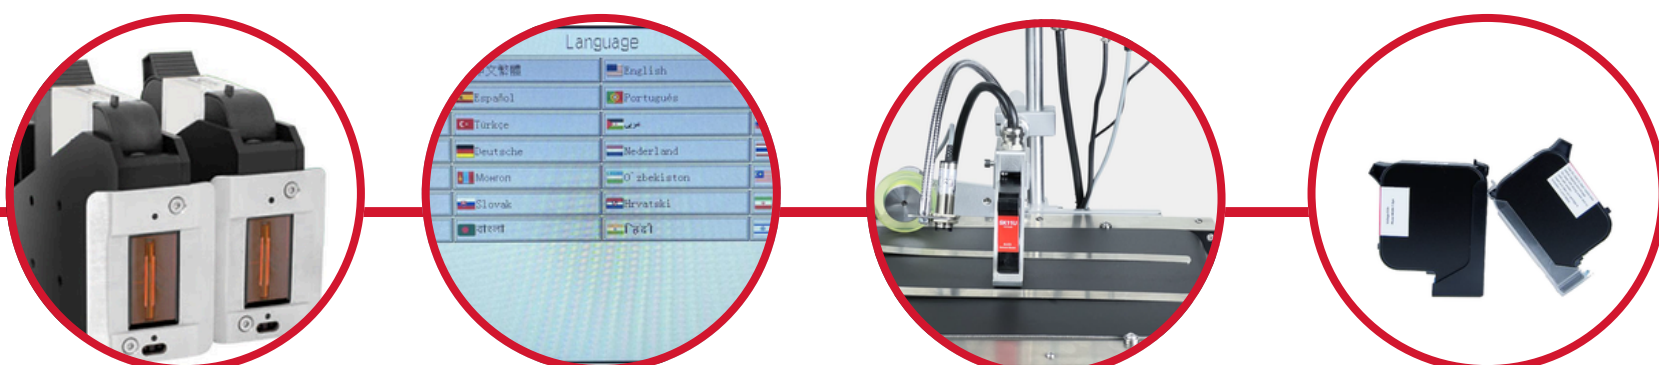

Applications: Cartons, labels, pouches

Features:

- High-resolution printing (600 DPI)
- Cartridge-based design (no ink mess)
- Easy integration with production lines
- Multi-language touch screen UI

Thermal Inkjet Printers (TIJ)

Labeling Solutions- CO₂ Laser Coding Machines

Powered by BAMR ENTERPRISES – IndustryBox Division

Our **CO₂ Laser Coding Machines** offer **permanent, high-speed, and contactless marking** on paper, plastic, glass, and coated materials. Designed for **24x7 industrial operations**, these systems are ideal for applications in **pharmaceuticals, packaged drinking water, FMCG, and electronics**.

With **zero consumables, low maintenance**, and **precise coding**, CO₂ lasers are a reliable and cost-effective solution for **date, batch, QR code, and logo marking**.

Applications: Bottles, PVC pipes, cartons

Features:

- Permanent, high-clarity coding
- No consumables
- Low maintenance
- Fast marking on high-speed lines

CO₂ Laser Coding Machines

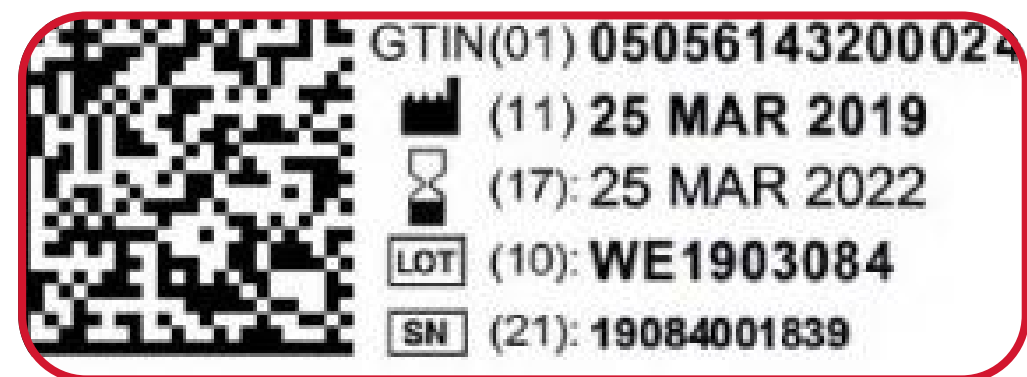

✓ Customizable Bracket ✓ High-Speed Galvanometer ✓ Customized height ✓ Easy to Operate (HMI)

Product Applications

PET Bottles

Pharma Batch Printing

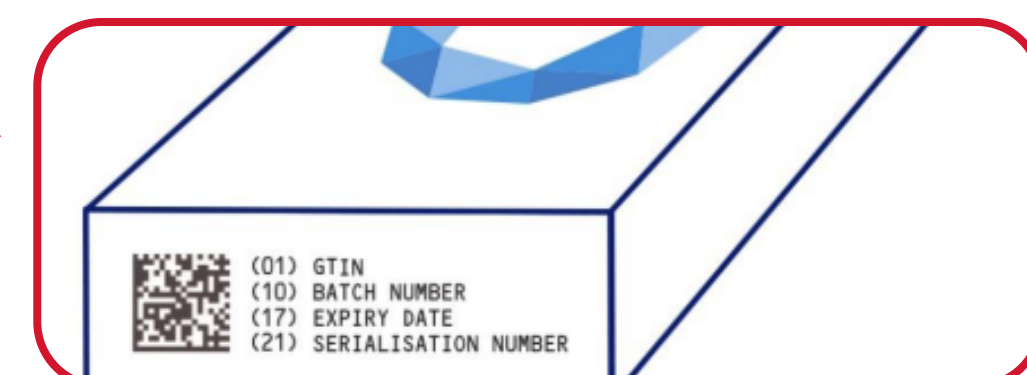

Pipe

Automotive and Aviation

Industrial Cabels

Tabaco

Channel Partners Network

LEAD TECH

Citronix

MapleJet

Nilkamal
